1421 EMERICK ST, PHILADELPHIA, PA 19125

3 BEDS • 2.5 BATHS • 1,410 SQFT

Introducing the Brothers Emerick: These side-by-side row homes are unlike any other you have been seeing on the market. Local builder/developers have combined the complete renovation of existing two-story brick buildings with a newly constructed third floor, pilot house and roof deck. The interior and exterior architectural design has been inspired by the unique traits of the brothers, one a sailor and one an astronomer. Exploring their distinctive characteristics guides interior layouts as well as selection of fixtures and materials, **resulting in two unique homes** - each with their own identity and personality.

This home, **THE SAILOR**, has 3 bedrooms, 2 baths. Located on a quiet street in the heart of Fishtown, the home is conveniently located blocks from the Berks station as well as countless Fishtown favorites like La Colombe, Mulherins Sons, and Kraftwork. Craftsmanship is evident in the restoration of the original building's charm, but the home incorporates all the modern design features you expect in new construction, including open floor plans, chefs kitchen, granite counters and a noteworthy master suite with oversized windows, vaulted ceilings and master baths beyond compare. The kitchen will include granite counters and stainless steel appliance package (Stove, Dishwasher, Refrigerator, Range Hood and Microwave). You will get to choose from a range of upgrades, giving you the chance to put your own mark on the home to call it your own. This home will go quickly, so mark your calendar for a hard hat Open House on May 12th & 13th. Your home will be ready for you in July, just in time to enjoy the roof-deck for the summer.
